

Buccaneer

Dennis Carroll '79'

Dennis,

You're a pretty nice
guy and I've enjoyed
knowing you this past
year. I know that you're
a little strange, but you
can't help it. Hope you
have good luck in the
future! (you'll need it)

Stay
straight,
- Marcia "

Dennis,
A really sweet
boy (ugh) who likes
to get into trouble! Just
keep cool, hang loose).
and your might make it
far in life. Good luck with
everything you undertake to do
also with the girls!

Love,
A. A. A.
Arthur

McINTOSH COUNTY ACADEMY, 1977 BUCCANEER, VOL. VII, DARIEN, GEORGIA, RICKY SAPP, EDITOR; FLORENCE BACON; CINDY GAULT; RUSSELL WHORTON; SHIRLEY JOHNSON; RUEL GRANT; DAVID SESSOMS; MRS. REBECCA WILSON, ADVISOR.

Dedication

The members of the annual staff feel that it is an honor to pay tribute to one who has become a genuine part of McIntosh Academy. She has participated in the planning, fund-raising, and assembling of the BUCCANEER. She has displayed a vast amount of determination in keeping the standards of our yearbook high. She has worked with us and has given us hope when things were dismal. With much affection, admiration and appreciation, we dedicate the 1977 BUCCANEER to our advisor, Mrs. Rebecca Wilson.

The yearbook staff proudly presents the 1977 BUCCANEER to you with the theme "Expressions." We feel the book expresses the most important aspects of the day-to-day experiences on the MCA campus. We realize that the students are a vital part of the school, and in this publication we have endeavored to create a memory that will always remain with you. In remembering this year at MCA, forget not the many people we have met or the wonderfully exciting times we have shared. We have tried to capture one year's activities in a book in which all will be proud. We believe we have accomplished this goal.

Expressions of Learning

Learning is what school is all about. It may involve looking for amoeba under the microscope, weaving a rug, creating a new fashion, learning to parallel park, or taking a difficult test.

Expressions of Having Fun

Having a good time is easy whether dressing up for F.B.L.A. initiation, listening to the Navy band, singing in chorus, or practicing in band class.

Expressions of Performing

Athletics are a vital part of school life. Students are able to compete in basketball, track, baseball, tennis, and even an occasional game of football.

Expressions of Struggling

Life can be so full of complications — for some it is reaching for books on the top shelf; for others it is sitting still during class. The problem could be getting a rebound, passing a test, or just staying awake!

Expressions of Moving

The ways we get around this county are really varied. Most of us are not as talented as Brent and have to depend on our old reliable feet. Of course, we certainly cannot do without faithful bus #7 either.

Expressions of Being Together

School is where we develop some of our best friendships. Doing things for each other, laughing together, and just enjoying each other's company makes our day even better.

Language Arts

A daily experience for each individual is communication. The insights and understandings from the areas of language arts lead to new knowledge and broader scopes for us through such subjects as speech, drama, literature, composition, grammar, journalism, and spelling. The nine teachers who make up this department work conscientiously to enhance, sharpen, broaden, and refine each facet of this comprehensive program for an excellent English department.

Social Studies

A small boy was playing noisily while his father tried to read a magazine. The father, in a final attempt to quiet his son, tore out a page of the magazine on which there was a map of the world, and cut it into bits. "Here is a puzzle for you," he said to his son. "Try to put this map together." In a few moments the father was surprised to see the map perfectly arranged. "How did you do it so soon?" he asked his son. "Oh, that was simple," the boy replied, "You see, on the other side was a picture of a man. I put the man together and the world was all right."

Social Studies

In a sense, this story illustrates the nature of social studies in American schools today, for social studies focuses on people, on the world, and on the relationships between the two. The social studies are those instructional courses, programs, and projects that are designed to assist students to understand, analyze, react to, and act upon the relationships of human beings to the world in which they live, to other human beings, and to themselves.

Mathematics

The McIntosh County Academy Mathematics Department, after observing the broad range of abilities and interests in our students, feel that a double-tracked mathematics program is required.

The first program should consist of practical or applied mathematics for those who will terminate their formal education at the high school level.

The second program is aimed at the college-bound student. These students have a sequential course of study which would adequately prepare them for pursuit of a college degree.

Special Education

The goal of the educational program is to provide the secondary-age youngster with those experiences which will permit him to think critically and act independently in his daily life. A program which will permit the student to achieve his maximum social-occupational independence is required. This program is geared to offer an educational program resulting in a competent, contributing, and productive young adult.

Mickey E. Yarbrough
Georgia College
B.S. in Art Education
Art

The purpose of art education programs in high school are varied in meaning as the instructors who develop said purpose. At M.C.A. the pupil's purpose is best defined as to provide an introductory environment in art on the pupil's individual level. Experiences are centered in the areas of painting, drawing, ceramics and weaving with direct emphasis on freedom of expression in design. Yet essentially it provides abilities to construct a creative attitude toward life as the ultimate form of self-expression.

Science and Chemistry

Science

The main goals of the Science Department are to develop an awareness of the environment and understanding of the scientific principles that concern the natural and physical world and to apply these principles to their everyday life.

They strive to create an interest in science that will lead either to a scientific career or to a continuing personal interest in, and an appreciation of the value of, scientific contributions to our way of life.

Physical Education

Your health is made up of physical, mental, and social traits. These three traits are closely related to one another. Your total health depends upon a good balance of your physical, mental, and social well-being.

Good health attitudes allow you to regularly exercise to control your weight and to promote longevity. By this, we of the Health and Physical Education Department feel your self-satisfaction is boosted and your self-concept is determined by good mental and social health habits.

Administration

Faced with the facet of administration duties are Mr. Huff and Co. It falls on their lot to keep the students at M.C.A. in line. To have a well-run administration, there must be determination and cooperation among the administrators.

Coupled with the monstrous task of academic and private counseling, Ms. Beverly makes herself available to students who need guidance with schedules, tests, home life, and students who just need to take a break from classroom life.

Cafeteria Staff

When students pop the question, "What's for lunch?", the answer ranges from Italian Pizza to down-home fried chicken. The lunchroom ladies spend considerable time each week preparing menus to suit the students' tastes and fulfill nutritional requirements. The cafeteria staff is rarely appreciated, so we take this time to say thank you. Ladies, take a bow!

From left to right: Mrs. Mary Pelham, Mrs. Beatrice Young, Mrs. Sheila Williams, Mrs. Dell Deal, Mrs. Earline Rowe, Mrs. Betty Sue Ryals, and Mrs. Martha Williams.

Custodians

Another group that we should take our hats off to are the custodians. Cleaning up after 750 students is not an easy job, but their efficiency is astounding. They keep our number one school in tip-top shape.

From left to right: Mrs. Ethel Anderson, Mrs. Caroline Tyson, and Mrs. Willie Taylor.

What Is an 8th Grader?

If you can imagine how a guinea pig feels in a maze, then you can understand how eighth graders feel when they begin a new phase of school life at M.C.A. We begin by playing "treasure hunt" the first day, having in our hands schedules for places and teachers we don't know how to find. Nevertheless, strong, youthful, and determined, (plus a little bit frightened), we begin our quest for a higher education. We are beginners.

Thus far we have discovered some things that high school is all about. Yet we are still young discoverers. We want to be a part of everything happening, but we have found out that Y-Club, Beta Club, FHA, FFA, FBLA, and all "A's" are important for only grades 9-12. That makes us a bit envious. However, we look forward to the day when we too shall move forward to the coveted positions of the "Big Folks on Campus." We are cute, creative, full of energy, and "inhibited" by upperclassmen who make us feel like their spoiled little sisters or brothers. We are the middle school members who want to express ourselves with cheers, songs, applause, drama, and excitement. We like some noise. We want P.E.! We want a library period. We want everything we don't have until we get it. We are people with problems in first year algebra. We are frustrated by outlining and compositions. We still enjoy spelling bees and weekly quizzes in history. We are fascinated by the story of life and ecology. We love life and want to live it fully. We are the restless ones who grow up too soon because next year we'll be a part of the "In Crowd" at M.C.A.

What is an 8th grader? Why we are just the youngest members of the M.C.A. family.

What Is a Freshman?

What is it like being a freshman? Being a freshman means giving up childish ways and becoming young adults. Life offers us more and we "proceed with caution" to the trials and tribulations awaiting us at the door of adulthood. We begin to feel important. Now that we are older, we realize that school is a considerable portion of our life. It means developing lasting friendships. It means giving something to each class — a joke, a laugh, and even a smile. Each class we shall remember as we move on. Some older teens pick on us, but really we are one big family. All in all being a freshman is more than just having a title. It's more like . . . well, growing up. We freshmen have only one disadvantage — we will be saying good-bye to our senior friends. We will surely miss them. We can sum it up by saying that being a freshman is like having to get a haircut — one dreads having to do it, but one can always grow out of it. We have worked hard to keep good grades and our pride as freshmen. We now have earned the title "freshman," and we are proud of it.

What Is a Sophomore?

As Sophomores, we are the "middle men" (and women) of high school. We are past the struggle of finding ourselves. We have learned through many experiences, some good, some bad, how to cope with things in high school life. We have found our friends. We are struggling and learning together, trying to overcome the uncomplimentary stigma of the word sophomore, a wise fool. Although we have made it one more step up the ladder, we are still envious of "the others" because we don't have as many privileges, such as going to proms and ordering class rings. We are gaining more and more confidence in ourselves every day because we know that we are already halfway to the seemingly unreachable goal of graduation. Sometimes we think of ourselves as "the useless class" because we are not being babied as newcomers are, and we are not thought to be as good as the "mighty Seniors." We have millions of ideas stored within us, but somehow we never seem to get a chance to put them to use. By the time we get to use our new ideas, we usually have already put them away into the childish corners of our minds. We do not apologize for what we are. Even though we are really confused sometimes, we have an understanding for life, and we believe in what we are doing.

S is for Seventy-nine
O is for our Originality.
P is for our Pride.
H is for our Honesty.
O is for our Organization.
M is for our Modesty.
O is for our Outpouring of Wisdom.
R is for our "Royal" Blood.
E is for our Eloquence.

What Is a Junior?

A Junior is an active, observant intellectual of some kind who has zest for living and a fantastic individualism which is sometimes hard to comprehend.

The junior year is our special time, when for us things really happen. We have sat back for years and watched while others directed the "Greatest Show on Earth" — all high school affairs. Well, someone in authority finally has come to realize that we are capable, confident, and eager to direct the players in the drama of school life without too much counseling. We only wonder what took them so long to acknowledge our talents and potentialities.

You see, a junior is a very responsible individual. We capably assist as aides and secretaries. We have the energy to create and the maturity to plan for ourselves adventurous undertakings which will spark our intellect and amuse our fancy. Needless to say, the wisdom that we gained during our sophomore year suddenly has meaning for us. We can clearly visualize why it's important to follow the rules of parallelism or outlining when composing. We can manipulate more accurately advanced mathematics because we have tucked away so very carefully all of the tricks about positives and negatives, and this makes cosigns and tangents so simple. The global sphere no longer seems so vast and frightening. It suddenly shrank in world geography, and we are anxious to travel to its farthest regions in search of our "Impossible Dreams." And, needless to say, three-fourths of us are madly in love with being in love. Why shouldn't we be? We are the most beautiful of the "now generation" on campus. We proudly walk the corridors in the glory of youth.

Though our personalities are a mixture very much like a weather menagerie, we are women and men, not boys and girls. We are compassionate, helpful, daring, unconquerable, wary sometimes; but dedicated, fun-loving, and simply fantastic. There's nothing greater than a junior — a rising junior.

What Is a Senior?

Seniors are people who act like actors or actresses who have just reached stardom. As a matter of fact, we are ready to begin our longest and toughest struggle, LIFE!!!

Seniors are opportunists who are vain, superficial, aggressive, and even conceited. We are also fast-minded, finger-hanging, disco-dancing, heart-breaking, fast-action chasing, midnight-riding, flaming youth. (But best of all we are modest.)

We seniors realize that we have spent twelve years with a majority of the same people and know each other better than is possible without, in a very real way, loving them. The memories race through our heads and contrast from grapefruit-bitter to honey-sweet. We realize that in a few short months we will be scattered to many parts of the world, and the ever present memories will be all that remain with us.

We laugh and try to shrug it off, but when we walk down M.C.A.'s halls for the last time, we will look back with a sadness that will never entirely fade away. All this comes into realization in a blink of an eye, and with the next blink, one solemn but meaningful tear appears.

The Goal Seekers

ECHO Staff

The ECHO staff is a group of people who make things happen. We inform the student body and faculty as to what is happening on campus. We are the ones who take pictures, think of ideas, produce the news, and meet deadlines. Sometimes being on the ECHO staff means considerable hard work mixed with fun. The last few minutes of our deadlines are very hectic, but we feel that the final result is well worth the effort.

BUCCANEER

Staff

The BUCCANEER staff at M.C.A. consists of a group of dedicated students who feel that it is their duty to publish an annual which holds many beautiful memories. Being a member of the BUCCANEER staff means becoming a salesman, creator, campaigner, Photographer, fund raiser, and even a writer. But most of all it is important for a BUCCANEER member to have pride, will power, devotion, and dedication needed to produce an exceptional year-book.

F.F.A.

The Future Farmers of America are a group of young men working toward the creation of ideas that will promote the upkeep of the general area. We beautify our campus by planting shrubbery and tending to the campus' general condition. We participate in the county's fair and the Fall Festival at school. We also study different aspects of forestry. Mr. Washington is our advisor.

F.H.A.

We, the Future Homemakers of America, are a group of individuals who are preparing to be better homemakers. We entertain with fashion shows and exhibits at the county's exchange fair in Brunswick. We work to learn skills in the areas of sewing and food preparation. We involve ourselves socially with every one and in every aspect of our school and community. Ms. Jean Norman and Mrs. Bessie Thomas are our advisors.

Teacher-Office Aides

We are a group of students who give our aide to the administrative staff and faculty. We lend a helping hand to all persons, and we help keep our teachers from becoming nervous wrecks during many stressing days.

Beta Club

We members of the Beta Club promote the ideals of honesty, service, and leadership. We reward achievement by assisting individuals in continuing their education through the Margaret Williams Scholarship Fund. We also participate in school activities. Our organization is known as the honor society and one must have a B average to join. Mrs. Shirley Gale is our advisor.

Drama Club

We, the Drama Club, are the future actors and actresses of the generation to come. We are the future winners of the Grammy awards and members of the Hall of Fame. We raised money by selling candy apples at the Fall Festival. We work hard developing the correct props and stage settings for plays, as well as perform for the school and community. Mrs. Maggie Blackshear is our advisor.

Musical Society

M.C.A.'s "Musical Society" is the place to be. It is composed of students who work hard with voice lessons, reading notes, breath control, and singing. Sometimes we are serious, getting ready for school concerts, and at other times we are just jamming with Mr. Allen Stripling.

Industrial Arts

Industrial Arts members are the handy men. We fix those broken items that need to be mended such as chairs, desks, and tables. We make blue prints and then build many gunracks, chests, tables and other useful items. We become creative through the help of Mr. Adolphus Williams and Mr. William Heck.

S.A.G.E.

We in SAGE are the future teachers of tomorrow. We encourage students to join our club and to consider teaching as a profession. We are a very active group of individuals who contribute much to school life with participation in the Fall Festival and observing National Education Week. We attend conventions and raise funds to purchase school equipment. Mr. Mann and Mrs. Pitner are our leaders.

F.B.L.A.

Members of F.B.L.A. keep busy with Ms. Mikkola and Ms. Fagler as our advisors. When we are not having doughnut sales on Friday mornings, we are having those strange initiations or giving teachers goodies. We always try to help out in school functions such as the Fall Festival. We are learning about business, but we are also having a good time.

Y-Club

Y-Club is a group of students who maintain and extend high standards of Christian character throughout the school and community. We are very active, and participate in field trips, basketball games, conference meetings, and the Youth Assembly in Atlanta. We also participated in the school's Fall Festival with our softball throw. Mr. Clarkson and Mrs. Hagarty are our advisors.

FREEDOM AND THE AMERICAN SYSTEM

We the people of the United States, in order to form a more perfect Union, establish justice, insure domestic tranquillity, provide for the common defense, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity, do ordain and establish this Constitution for the United States of America.

Preamble
to the Constitution of the
United States, 1787

The Constitution of the United States is an expression of freedom. Not only political, cultural and religious freedom, but economic freedom as well. It is the freedom that has made America's free enterprise system possible. Our continued progress and high standard of living provide ample evidence of the important and beneficial effects that this system has produced.

**FLAG
RAISERS**

Genius a nice boy & knows that you'll always make it to the future so, good luck! friends Margaret

To the readers of the 1977 BUCCANEER:

It has been a pleasure being the editor of the 1977 BUCCANEER in spite of all the hard work, anxiety, and frustration.

For the first time ever, our yearbook has a theme, "Expressions." The definition of expression is "a representation of meaning, sentiment, or feeling."

I feel this edition of the BUCCANEER incorporates all of these.

An immense feeling of gratitude comes from me for all those who had a part in producing this yearbook. The group of people I am most grateful to are the members of the staff. Without their determination and hard work this yearbook would not have been possible. Many students and teachers have been helpful throughout the year in the production of this book. I am most appreciative of their help. I would also like to thank Mr. Jack Orman for his help with the photography. Mrs. Wilson deserves special thanks for instilling drive and determination in the staff and for putting up with the staff and me.

I hope you will enjoy reliving the many "expressions" of M.C.A. in the 1977 BUCCANEER.

Sincerely,

Ricky Sapp

Editor

Dennis,
you are
a very nice guy
who I've always
enjoyed being around.
I wish you the best
of luck in the future and
you will always have a
place in my heart.
Love ya,
Feri

Dennis,
You're a great guy
Just think in 2
years we'll be seniors!
Warren

Dennis,
You're okay
really stay the way
you are now and you'll
make it, thru
life. Best
wishes
Friends,
Dot Williams

Hi Dennis,
You're a
very nice
guy. I wish
you the best
of luck.
Love,
Feri

Dennis

When are you going to fix me up
with your good looking cousin?
Sometimes I get mad at you for cutting
down my athletic ability, but what you
have to realize is that what there ain't none
of can't be cut down. HA! HA! I want to
thank you for telling me win at chess,
all the time, you're great for my ego!
HA! HA! I hope that next year you'll go
out for the old ball club, we'd have a blast
together. Even though you're a better chess
and baseball player than me there's
one thing you'll never be, cool? Like me!
I hope we'll have lots of fun the
next two years,

Lots of Luck,

C.B. 0000 79
X
